Project 3

In this project, you will create components for a Angle Clamp assembly and then assemble them. You need to create all the components as separate part files. The views and dimensions of the components are shown in Figures P3-3 through P3-13. You can also download the model files for your reference from www.cadcim.com.

You can also download the model files for your reference from *www.cadcim.com*. To download the files, use the following path: *Textbooks > CAD/CAM > CATIA V5 > CATIA V5-6R2021 for Designers> Projects for Free Download > Project 3*
